USAfrica & Arab Colonialism: program of action

Dear Afrocentrist black African,

Here is a 5-point program of action suggested by the CAACBA

- 1] Fwd this series and program of action to as many Black Africans as you can.
- 2] Put it on as many websites as possible;
- 3] Get editors to publish it in your local Black Community Newspapers;
- 4] Hold community study and discussion meetings on USAfrica and Arab Colonialism, using the series as basic discussion materials;
- 5] Write to your local newspapers, call your radio stations, contact your church leadership, organize marches and demonstrations, send petitions to the president and foreign minister of your country-- as well as of other Black African countries —and demand a five-year moratorium on any decision on the USAfrica to enable the black communities discuss and debate it and give the AU presidents a democratic mandate on what to do about it.

Editors who want non-pdf copies of the series to print from should write to sundoor777@hyperia.com and request the MSWord version of the series.
